DECLARATION OF WILLIAM W. SCHWARZE

I, William W. Schwarze, as attorney of record, declare that it is believed that the above-identified patent has been lost and the circumstances are as follows:

1. U.S. Patent 6,734,074 issued on May 11, 2004, at which time Applicants were represented by Tung & Associates;
2. Responsibility for the above patent was transferred to the undersigned attorneys of record on or about April 11, 2005;
3. Upon learning from Applicants' assignee Industrial Technology Research Institute that they never received the original Letters Patent issued for this application, the undersigned reviewed the file in an effort to locate the original Letters Patent. The original Letters Patent was not in the file nor was there any copy of a letter to Applicants from their previous attorneys forwarding the original Letters Patent;
4. On August 30, 2005, the undersigned wrote to Tung & Associates inquiring whether they were in possession of the original Letters Patent. To date, Tung & Associates has not responded to our letter;

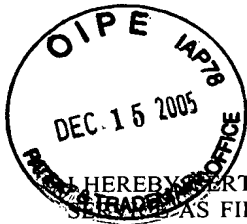

5. In view of the above, it is believed that the original Letters Patent has been lost and is unlikely to be recovered.

DECLARATION OF JEAN SU-CHEN LIAO

I, Jean Su-Chen Liao, declare that I am employed by Industrial Technology Research Institute as a Manager of Patent Information and Management Department. I further declare that it is believed that the above-identified patent has been lost and the circumstances are as follows:

1. U.S. Patent 6,734,074 issued on May 11, 2004, at which time Applicants were represented by Tung & Associates;
2. I have reviewed our file in an effort to locate the original Letters Patent issued for this application. I can find no evidence that the original Letters Patent was ever sent to or received by Industrial Technology Research Institute at the time of issuance or at any time thereafter.
- 3.. In view of the above, it is believed that the original Letters Patent has been lost and is unlikely to be recovered.
4. I hereby declare that all statements made herein of my own knowledge are true and that all statements on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false statements and the like so made are

punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the patent application or any patent issuing thereon.
